A force for positive change in the design / construction industry

11/23/09 – CIRT Nominates Four Members to Serve on State Department Advisory Panel

The CIRT Board of Directors has placed in nomination four members to serve on the Department of State Bureau of Overseas Buildings Operations' (OBO) Industry Advisory Panel; included in the group are:

- Michael D. Carroll (ARCADIS U.S. Infrastructure)
- Jim Kenny (Kenny Management Services)
- Kathleen M. Shanahan (WRScompass)
- Ron Skaggs (HKS, Inc.)

The opportunity arose when the State Department asked CIRT President Mark Casso to submit two potential candidates for the Panel that were experts with extensive knowledge and experience in areas such as: research and development, design, construction, the environment, seismic issues, emergency operations, security, real estate, or planning and development. Given most, if not all, of CIRT's members could fit this description – the Board decided to send forward four names (rather than the two requested) and to let the State Department decide which most fit their needs – if not all four. The appointments are for one-year terms and would serve as a CIRT representative. To further that end, the Round Table committed to support their efforts with timely feedback and information from the larger universe of our members when ever requested or needed.
