5/29/14 - Latest Revised Estimate of First Quarter GDP, Sinks into Negative Territory

Real gross domestic product (GDP) decreased at an annual rate of 1.0 percent in the first quarter of 2014, according to today's second estimate. The latest "estimate" is a more accurate measure than the earlier release (which had the GDP "grow" at 0.1 percent), this revision represents a negative update to the already dismissal performance initially reported.
