CIRT Business News

A force for positive change in the design / construction industry

01/05/2018 – U.S. Chamber of Commerce Announces Major Infrastructure Summit

Coming on the heels of a high-level meeting with leaders of the U.S. Chamber of Commerce, CIRT has been invited to participate in a kick-off summit on infrastructure scheduled for **January 18, 2018** in Washington, DC. The very productive meeting reinforced the nearly total alignment of the two organizations on passing a comprehensive infrastructure initiative in 2018. CIRT shared with the Chamber its recently adopted Strategic-Vision Statement on Infrastructure, which found not only a sympathetic hearing, but a near total agreement with the Chamber's views on the critical objectives or elements needed to enhance and improve America's infrastructure.
