A force for positive change in the design / construction industry

07/31/2018 – President Trump Signs into Law Workforce Bill

Today, the President signed the **Perkins CTE Act** into law, which provides crucial funding toward training programs for American students and workers. The new law will provide more than \$1 billion each year to states for vocational and career-focused education programs. These programs, tailored toward secondary and post-secondary students, will help employers fill the high-skill jobs of tomorrow. This funding is key: 94% of high school students participate in Career and Technical Education courses and programs in some form.
