

Construction Industry Round Table

Business News [RESOURCE]

A force for positive change in the design / construction industry

09/05/2018 – Workforce Safety Concerns [RESOURCE]

The members of CIRT have made SAFETY a top priority for themselves and the industry. For its part, CIRT has been a strong supporter of “Safety Week;” a member of the “Drug- and Alcohol-Free Workplace Coalition;” incorporated the subject matter into many of its conference programs; and maintains a resource page on its web site for various safety related matters and information. Adding to those resources, CIRT is making available to its members a March 2018 comprehensive study/report (well-documented & peer-reviewed covering four states and DC), addressing the impacts (including on workforce) from the legalization of marijuana.

For a copy of the report go to: <https://learnaboutsam.org/wp-content/uploads/2018/04/SAM-Lessons-Learned-From-Marijuana-Legalization-Digital.pdf>
