A force for positive change in the design / construction industry

12/04/2017 – CEO Key Role in Achieving Zero Injury

The National Academy of Construction, recently released Safety White Paper No. 41, “*The CEO’s Role in Safety is Key to Achieving Zero Injury Outcomes.*” The paper addresses the big question facing interested CEOs: “How do I do that?” After 27 years of CII research application, the answer appears clear: companies whose CEOs excel in demonstrating a commitment to “no employee gets injured” lead in achieving zero OSHA Recordable Injury for the greatest number of hours worked. (To see other NAC publications on safety can be found on the NAC website at <https://www.naocon.org>).
