

Construction Industry Round Table

CIRT News

A force for positive change in the design / construction industry

12/22/2016 – Drug and Alcohol Free Coalition Continues to Expand Efforts/Resources

As a founding member of the Drug & Alcohol-Free Workplace Coalition, CIRT has worked with the other members to build on the initiative's goals, by providing a more robust and useful website/clearing house. The new www.drugfreeconstruction.org website is up and running.

- The site is more responsive, which means is *mobile-friendly*. You can now view and interact with the site on your phone or iPad/Tablet.
- Pledge count real-time: automatically increasing as people sign the pledge
- Database clean-up and export: We have meticulously cleaned up the database. Through WordPress, you can now export the complete database.
- Form enhancements: We have added the option to “opt-out” of the *public* database. The pledge will still be counted, but a company will not be listed on the website database, but it will be saved in the database.
- Sidebar enhancements: e.g., Factoids (handy data points: useful for presentations, newsletters, and/or information on the topic)
- Search Engine Optimization, increased resources and thought leadership, AND
- The site was integrated with WordPress, a content management system CMS which gives the managers the ability to edit the content of all pages, as well as add/edit pledges and export database more quickly.

In addition, the site managers (ABC staff) will be able to further enhance the website with relevant and timely data, articles, events, best practices, videos...etc.

Take the pledge today at <http://www.drugfreeconstruction.org/>
